TELECOMMUNICATIONS POLICY

List of Contents and Author Index

Volume 21, 1997

PERGAMON

TELECOMMUNICATIONS POLICY

TELECOMMUNICATIONS POLICY is concerned with the regulation and management of telecommunications and information systems worldwide. It provides a focus for research and debate amongst academics and professionals studying such issues as competition and regulation in the telecommunications industry, telecommunications and economic development, and the convergence of new technologies and services.

CONTENTS OF VOLUME 21

Number 1 (February 1997)

Editorial	1	Globalization, convergence and regulation *Colin Blackman*
Comment	3	Contestability and pricing flexibility: issues in Hong Kong *Keith Bernard and Tracy Sum C S*
Papers	15	Universal access to online services: an examination of the issue *Benjamin M Compaine and Mitchell J Weinraub*
	35	A regulatory regime for innovation in the communications industries *Cristiano Antonelli*
	47	Applying EC competition law to alliances in the telecommunications sector *Melpomeni Styliadou*
	59	The development of cable television in Australia: a tripartite model of interactions *Paul S N Lee*
Book reviews	71	1988, A new era for EU telecoms regulation *Colin Blackman and Michael Denmead* (Dimitri Ypsilanti)
	72	The new information infrastructure. Strategies for US policy *William J Drake* (Ed) (Larry Martinez)
	74	Telecommunications politics. Ownership and control of the information highway in developing countries *Bella Mody, Johannes M Bauer and Joseph D Straubhaar* (Eds) (Ben A Petrazzini)
Letter to the Editor	77	International accounting rates *T H Chowdary*

Number 2 (March 1997)

SPECIAL ISSUE

RESTRUCTURING JAPANESE TELECOMMUNICATIONS

Editorial	79	Restructuring Japan's telecommunications *Erik Bohlin*
Papers	85	The status of Nippon Telegraph and Telephone Corporation (NTT) *Eiichi Tanaka*
	101	NTT's transformation: from Public Telephone Operator to major multimedia enterprise *Koichiro Hayashi*

113 Is 'bottleneck' a viable concept for the breakup of NTT?
Tsuruhiko Nambu

127 Japan's stumbling policy for competition in the telecommunications industry
Tatsuya Omura

143 NTT's R&D: a platform for multimedia
Takahiro Kawamata

165 Japanese telecommunication reform and the standards-setting process
Terry Curtis

177 Advanced universal service in Japan
Minoru Sugaya

185 Towards a new agenda for Japanese telecommunications
Martin Fransman

Number 3 (April 1997)

Comment 195 On the meaning and importance of 'independence' in telecom reform
William H Melody

Papers 201 Thinking strategically about intellectual property rights
Peter Drahos

213 Price setting and regulation for telecommunications in the absence of reliable and detailed cost information
Patrick Xavier

235 International competitiveness in East Asia. Broadband telecommunications and interactive multimedia
John V Langdale

251 Local exchange competition, rate restructuring and universal service
Francis J Cronin, Elisabeth Colleran, Michael Miller and Richard Raczkowski

265 An interim assessment of competition in the Korean international telephone service market
Hyeon-Mo Ku and Jae-Cheol Kim

Book review 275 Resale and callback. Opportunities and threats
Stephen Young and Paul Lee (Alicia Clegg)

Number 4 (May 1997)

Comment 277 Bridging the generation gap. Will LEOs provide what GEOs couldn't?
A C Arroio

Papers 283 Tariffing in the new IP/ATM environment
Dawson Walker, Frank Kelly and Jonathan Solomon

297 ERMES-auction in Germany. First simultaneous multiple-round auction in the European telecommunications market
Alfons Keuter and Lorenz Nett

309 Opportunities vs incentives to discriminate in the US telecommunications industry
Dennis L Weisman and Mingyuan Zhang

317 Residential consumers and 'rejected knowledge'. Exploring and acknowledging the margins in broadband services in Australia
Gerard Goggin and Christopher Newell

329 Prediction of future demand from current telecommunications uses in the home
P Gillard, K Wale and A Bow

341 Households without telephones in the UK
Philip Dyer

Number 5 (June 1997)

SPECIAL ISSUE

THE ROLE OF WIRELESS COMMUNICATIONS IN THE PUBLIC NETWORK

Introduction 355 The role of wireless communications in the public network
Alex J Wolfson

Papers 357 The role of wireless communications in the global information infrastructure
Bruce L Egan

387 The economic viability of wireless local loop and its impact on universal service
Terrence P McGarty

411 The effect of cellular service on the cost structure of a land-based telephone network
David Gabel and D Mark Kennet

423 Feasibility of using radio relay in low tier wireless local loop systems
Hung-Yao Yeh and Alex Hills

437 Technology of fixed wireless access
David Trinkwon

451 Widespread deployment of wireless telephony. Business, legal, regulatory and spectrum challenges
Rob Frieden

461 Beyond spectrum auctions. Taking the next step to open spectrum access
Eli Noam

Number 6 (July 1997)

Papers 477 Telecommunications and WTO discipline. An assessment of the WTO agreement on telecommunication services
Markus Fredebeul-Krein and Andreas Freytag

493 Competition, convergence and asymmetry in telecommunications regulation
Antonio Perrucci and Michela Cimatoribus

513 Internet, lies and telephony
Richard A Cawley

533 Australia's post-July 1997 telecommunications regulation in international context
Patrick Xavier

553 Fusions of information types, media and operators, and continued American leadership in telecommunications
Aharon Kellerman

565 Online services and 'transactional space'. Emerging strategies for power and control in the new media
Peter B White

Number 7 (August 1997)

SPECIAL ISSUE

THE ECONOMICS AND REGULATION OF PAY BROADCASTING

Papers

575 Regulating digital television in a convergent world
Martin Cave

597 Bottlenecks in pay television. Impact on market development in Europe
Dermot Nolan

611 Future demand for pay-TV in the UK
Mark Shurmer

619 The economics of sports rights
Campbell Cowie and Mark Williams

635 The wholesale pay TV market in the UK. An economic analysis of the 1996 OFT review
Campbell Cowie and George Yarrow

649 Competition and regulation in the US video market
Robert W Crandall

661 The regulation of digital conditional access systems. A case study in European policy making
David A L Levy

677 European aspects of the regulation of pay television
Richard A Cawley

Number 8 (October 1997)

Comment

693 Erosion of monopoly power by call-back. Lessons from Hong Kong
Pun-Lee Lam

Papers

697 Can the telecom equipment industry afford accelerating technical advance?
Donald A Hicks and Daniel M O'Brien

709 Public interest groups and the Canadian Information Highway
Stephen D McDowell and Cheryl Buchwald

721 Policy reform in networks infrastructure. The case of Mexico
Ramiro Tovar Landa

733 Dutch telecommunications. A period of transition
Jaap A Tempelman

743 A conjoint model of enhanced voice mail services. Implications for new service development and forecasting
James E Katz and Carl E Batt

761 Telecommunications and the Information Society in European regions
Antonio Alabau

Book review 773 Telecom reform principles, policies and regulatory practices
William H Melody (Ed) (Rob Frieden)

Number 9/10 (November/December 1997)

Comment 775 Obtaining global market access for GMPCS
David Wright

Papers 783 The GATS and new rules for regulators
Lee Tuthill

799 The WTO deal on basic telecommunications. Big bang or little whimper?
William J Drake and Eli M Noam

819 The impact of call-back and arbitrage on the accounting rate regime
Robert M Frieden

829 Universal service and public access in the networked society
Patrick Xavier

845 Retrospective technology assessment. The impacts of computer communications on the structure of the public telephone network
Hokyu Lee
